

ACCESSING SAFETY KNOWLEDGE (ASK) SHEET: *SAFETY APPS & MOBILE WEBSITES*

Smart phone apps and mobile websites that can help manage safety on jobsites.

iAuditor - Safety Audits, Checklists & Inspections

Real-time visibility into safety and quality in the field. Manage risks and streamline your team's communication. Allows you to create infinite audit templates (companies with multiple trades may need more than one) with company logos, etc. Once audit is created you can use the app to conduct the audit, it is very easy to add photos of deficiencies, and produces a very clean final product. It also allows you to email the reports to anyone directly from the app, no need to pdf and send.

Trench Right

Allows you to enter information about your trench's dimensions, soil type and TSF reading in order to calculate the proper angles of repose for the soil you're digging in.

[iTunes](https://itunes.apple.com/us/app/trench-right/id1021493328?mt=8) - <https://itunes.apple.com/us/app/trench-right/id1021493328?mt=8>

[GooglePlay](https://play.google.com/store/apps/details?id=net.ingeniousrobot.trenchright) - <https://play.google.com/store/apps/details?id=net.ingeniousrobot.trenchright>

Weatherbug

Uses cellular-based GPS to show weather radar. Monitor lightning strikes within specific distance from your location (helpful on jobsites where cranes and other equipment with booms are in use).

[iTunes](https://itunes.apple.com/us/app/weatherbug-weather-forecasts/id281940292) - <https://itunes.apple.com/us/app/weatherbug-weather-forecasts/id281940292>

[GooglePlay](https://play.google.com/store/apps/details?id=com.aws.android) - <https://play.google.com/store/apps/details?id=com.aws.android>

OSHA Heat Safety Tool

Allows users to calculate the heat index for their worksite, and, based on the heat index, displays a risk level to outdoor workers. Get reminders about the protective measures that should be taken at that risk level to protect workers from heat-related illness-reminders about drinking enough fluids, scheduling rest breaks, planning for and knowing what to do in an emergency, adjusting work operations, gradually building up the workload for new workers, training on heat illness signs and symptoms, and monitoring each other for signs and symptoms of heat-related illness.
